KENTUCKY WEATHER REPORT.

What We May Expect Between This The and To-morrow Evening.

THE LEDGER'S WEATHER SIGNALS.

The above forecasts are made for a period of thirty-six hours, ending at 8 o'clock to-morrow evening.

He sat at the dinner table
With a discontented frown;
The potatoes and steak were unde
And the bread was baked too be
The pie was too sour, the pudding
And the roast was much too fat
The soup so greasy, too, and salt,
'Twas bardly fit for the cat.

"wish you could eat the bread and ple
I've seen my mother make."
They are something like, and 'twould do y
Justic and 'twould do y
Justic and 'twould and y
Justic and 'two and the seen and y
Justic and the smilling wife: "!'Ill improve with ago
Justic now I'm but a beginner;
But your mother has come to visit us,
And to-day she cooked the dinner."

TO ADVERTISERS.

A Word to Republicans.

THE deliverance of the Chicago Con vention on sliver is as follows:

weation on silver is as follows:

We denounce the Republican legislation known as the same
Description of the same and the same
Silver Plank traught with possibilities
of its supporters, as well as its author,
unions for its speedy repeal. We hold
to make all of the same and the same and

or be adjusted through international systement or by such safeguards of legislation as shall insure the maintenance of the parity of the two metals and the causal power of every dollar at all times in the markets and in pursuent of debts; abail he kept at par with and redeemable in such coin. We faissit upon this policy as especially necessary for the protection of the farmers and laboring classes, the first said most defenseless victims of currency.

of the farmiers and laboring classes, the mixt add most defenseless victims of unstable money and a fluctuating the second of the property of

spacetical regination introduction the space is a few and a fer wards opposed resumption of specie payments.

The truth of the whole matter is that the settlement of the silver question must be sought in some such international agreement as the HABBION administration is now trying to make. For such an effort the Republican party is splendidly equipped, since its financial record to see which commands the admiration and confidence of the world. The Democratic party, on the contrary, can make little headway the contrary, can make little headway already and the contrary, can make little headway already and the contrary, can make little headway the contrary, can make little headway already already and the contrary, can make little headway the contrary can make little headway the contrary can make little headway that the contrary can be also that all the contrary can be also that all the contrary can be also that th

of financial demagogy and repudiation.
Having made its own bed, it will be forced to lie in ft. When It comes to financial agreements with other Nations, the Democratic party is certain to make a failure when the Republicans can easily achieve success. That is why decidrations which amount to something from one party mean nothing coming from the other.

THE Western Union Telegraph Company has refused to credit further the state of Kentucky. There is no moust in the Tressury, and the June telegraph bill is unpaid. The Western Union will lake no state telegrams unaccompanied by the cash, and there is no money for such use. What do you think it is shout time for a "change" and a "look at the books" at Frankfort?

In the United States, according to Commissioner Carroll D. Wright, the average for male weavers in the woolen trade is about \$8.53, and for women \$7.45. This, however, is a low average, \$7.5. This, however, is a low average, in many woolen and worstel factories in Pennsylvania, Rhode Island and Massachusetts the wavers earn from \$10 to \$12 a week, and sometimes as high as \$15 a week. The lowest figure given by Commissioner Witters in more than double the wages paid in Braiford, the center of the English woolen industry. These facts and figures, from authoritative British as well as American sources, sufficiently illustrate the difference between English Democratic Freetrade and American Republican Protection.

This is the way such Democratic pa-pers as The New York Sun speak of the Homestead outbreak, which some of the small fry demagogues are trying to magnify late an outrage upon the rights of workingmen by "Protected" mann-

of workingmen by "Protected" mann-facturers:
Clearly, the men who broke into the company's premises were trespassers, and under the old common law they would be held as burglars, since their breaking in no more right to be where they were when the company's new employes at tempted to land, than they lad to be on any other prece of private property not their own. The company had a right to force would not constitute an assault On the other hand, assaults committed by the trespassers added to their original crime, and made it a misdemession, at force, that if the homicides at Homesteed are to be treated as murders, the murderers are not the Plaketton men, who were acting within their legitimate right, but the trespassers who opposed right, but the trespassers who opposed prints, but they have been blamed for carrying arms, but in doing so they were carrying arms, but in doing so they were

A FLOOD.

Two fundred People Drowned in the liver Are at 8t. Gervals.

Panis, July 12—A terrific storm swept over the Channounis valley. Rain fell in torrents, and the enormous quantity of water precipitated caused the river Are to rise suddenly to a great height. The swelling of the mountain the properties of the country along the banks and great dumage was done at many pinces. The worst disaster was at 8t. Gervals, the famous health resort. The village was practically swept away, and it is reported that 200 residents and visitoss were drowned. The celebrated baths were destroyed, and at least half the buildings in the dioating debris, mingled with which are many corpses of men, women and children, besides hundreds of carcasses of cattle, goats and other animals. The Channoual's valley is the most celebrated in the Alps for its picturesque sites and wild grandeur. Its southern boundary it the famous Mt. Blanc, from hardly less noted, as a glackers descend into the valley. The valley is about twelve miles long, and from one to six miles broad, forming the upper bash of the Arve.

Militia Espected to Itemats at Homestead a Month-Strikers Illecouraged.

Hungerstan, Pa., July 13.—The news from Harris-burg that it is the lutention to combine the annual encampment with the preservation of public peace at the combine that the militia are here to stay; that that the militia are here to stay; that there or four weeks at least will elapse-before they take their departure, and the battle between the strikers and the militowers is now one of endurance. It is not thought that Carnegie & Cohavey et made any extensive arrangements for the employment of non-union such as more in the immediate future. Some repairs to the milli are necessary before work is to be resumed, and the published statements of Secretary Lovejoy Tuesday show that the expects that many of the strikers will conclude to return to their work, when they see that the presence of the military rendemate any resistance to the employment of non-union labor should the company conclude to bring in outsiders. The men still maintain that the works will remain idea that a feeling of dejection has taken possession of the most military are in the sir, but as General Manager Frick has repeatedly stated that he will not reopen negatiations with the Amalgamated Association to the laborate research these rumons.

on, but little Greening Servanors.

setupors.

outbeins, O., July 18.—Provident Diride, of the United Mine Workers America, returned Tuesday evening an the Hocking valley, where he has no directly the difference between adjusting the difference between no drompessation for what is known to decompessation for what is known outside work. He states that the reatened strike in that section has an averted by the operators according the demands of the miners.

Washinston, July 13.—The senate having, on motion of Mr. Allison, re-umed consideration of the sandry civil numed consideration of the sandry civil pppropriation bill, the effect of that the control of the sandry civil numerical numeri

AN EARTHQUAKE

AN EARTHQUAKE

Instroys interes sletty—Mount Altua
Rome, July 18.—The eruption of
Mount Etna is rapidly increasing in
violence. Loud explosions are continually taking place. A severe earth
shock occurred Tuesday morning, which
reduced to ruins the village of tilarre,
on the coast of Sielly, five hours' jouriney from the craters of Monat Litua.
The population of Glindray mounts have
perished. The whole country suffered
severely from the shock. Engineers
have been sent to threatened points to
prevent the lava from entering the
wells from which the population obtais'
water. The steam generated would destroy the wells. The people in the
vicinity of the mountain are caim, and
betray no sign whatever of a panic.
